

Gary McCarthy

Gary McCarthy is running for re-election for Mayor of Schenectady

Gary McCarthy is running for re-election for Mayor of Schenectady. During his time in office, McCarthy has worked towards the sustainable remodeling of streets, creating bike lanes and partnering with a local Schenectady-based business, Livingston Energy, to place electric vehicle chargers throughout the City, allowing for Schenectady to be named EV City of the Year in 2022 by the Electric Vehicle Association. Additionally, he has supported the installation of environmental sensors to monitor both air pollutants and the water levels of Mohawk River, providing communication to residents on environmental risks in the neighborhood like flooding. If re-elected, McCarthy plans to develop more aggressive approaches to reduce littering, reducing energy consumption, and other pro-environmental agendas.

- **REGION:** Capital Region
- **GOVERNMENT BODY:** Mayor
- **YEAR:** 2023

NYLCV is the only statewide environmental organization in New York that fights for clean water, clean air, renewable energy and open space through political action. We're non-partisan, pragmatic and effective.

GE Verona is investing \$50 Million to locate its Onshore Wind Manufacturing Operation in Schenectady, creating 160 full time energy jobs. Schenectady will be a key part of the energy transformation now underway.

Dear Voter,

Protecting our environment means investing in our future. As Mayor, I have led the effort to establish a pro-environmental agenda for Schenectady.

We have:

- Invested in electric vehicles and charging stations and as result was named **EV City of the Year in 2022.**
- Established three new solar facilities: Anthony Street; Cheltingham Avenue; and Niskayuna Reservoir. This initiative not only provides for a sustainable future – **it has saved taxpayers over \$600,000.**
- Supported environmental sensors to monitor air pollutants and other environmental risk factors.
- Included bike lanes to compliment the sustainable remodeling of our streets.
- Aggressively worked to reduce litter and to keep our community safe.

We need to fight climate change at every level of government. I pledge to continue these efforts to provide a quality and sustainable future for our children and our entire community.

I humbly ask for your vote in the Democratic Primary Election on June 27th so that we can continue the good work we have undertaken.

Very truly yours,

Mayor Gary McCarthy
